VERO BEACH SUNRISE ROTARY
SERVING THE YOUNG, THE ELDERLY, AND THE
ENVIRONMENT SINCE 1989.

Do you know that RI President Ian Riseley has presented an environmental challenge to every Rotary Club? President Riseley has challenged every Rotary Club in the world to plant a tree for every member in the Club between the beginning of the Rotary Year and April 22, 2018, Earth Day.

Said President Riseley, "The time is long past when environmental sustainability can be dismissed as not Rotary's concern. It is, and must be, everyone's concern. It is my hope that the result of this effort will be far greater than the environmental benefit these 1.2 million new trees will bring. I believe the greater result will be a Rotary that recognizes our responsibility not only to the people on our planet, but to the planet itself".

Where will Vero Beach Sunrise Rotary plant its 90 trees?

Dear Rotarians,

Little Birthday Angels has two men celebrating their 18th birthdays and moving out of Hibiscus. They both are going into the military, which is very exciting to know that they have a positive plan for their future. One will be moving into transitional housing 1st, and the other will be leaving for the military right away. So, they have some specific needs that they have asked for that we would like to gift them with. Please tell your organization thank you for the many donations that they have already gifted us with. They have been a huge blessing to so many children.
